Doesn't help with my class

By Victoria

Very simplified book. It doesn't give me much information when I'm trying to find answers. The professor said it was mandatory, but we haven't actually used it. Good thing I rented it because I don't find the information here completely useful considering that my professor offers online sources with much more information.

By Lucy Vang

The book is okay. Came in time, but when reading it for class and tests, to me it seems like the writing is all over the place. I don't even know where to start. I like how it shows examples and pictures though.
