I enjoyed it a lot more than I had expected to ...

By Anon

I finished the first volume of the novel only to realize that both the manga and anime were just tips of the iceberg. Due to pacing requirements, neither managed to touch the level of detail going on within the novels. I enjoyed it a lot more than I had expected to due to the gratuitous amount of character interaction and scenes which never appeared in the anime or manga. Recommended for Kageoru Project fans.

Volume 1 mainly covers the story for these 3 songs from the Kagerou Project: Jinzou Enemy, Kisaragi Attention and Mekakushi Code/Chord. On a side note, small parts of Kagerou Daze (the story arc) are used as transitions between each of these chapters.

2 of 2 people found the following review helpful.

Awesome New Manga

By James Agee

I had no clue what this manga was about when I got it, the cover looked cool and the description was

interesting, so I went with it. The art is brilliant and fresh and the story is fast paced and keeps your reading. I feel a little lost as to what the plot actually is in this manga series, but I will keep reading to find out because some really cool stuff happened in this volume. The characters are actually well written and likable. I recommend checking this series out and I hope Yen Press continues with it!

1 of 1 people found the following review helpful.

It was perfectly done despite the 3D animation in Ayano's Theory of Happiness episode at the beginning

By Richard Carr

For anyone who hasn't read or listened to the songs and is simply looking for something new to read. Then look no further. This manga has the right amount of mystery, humor and character for anyone interested in a unique story. If you're wanting more detail... I suggest picking up the novel instead. But if you're a fan or collector, I would certainly buy both. As I did myself. I hope the anime gets a blu-ray release here in the states as well. It was perfectly done despite the 3D animation in Ayano's Theory of Happiness episode at the beginning. Which is fixed in the jp blu-ray. But doesn't include subtitles.
