MANIFEST YOUR MAGNIFICENCE: THE ENERGETICS OF BEING BY JOAN E. WALMSLEY PDF

This book describes the synthesis currently occurring between science and metaphysics that reveals the energetic nature of all life and the amazing truth behind physical reality. It discusses the relationship between energy and consciousness, and how management of your own energy signature can change your reality and even your physical body. It demonstrates how you can connect to the immense energy available at the higher frequencies of your own being to manifest abundance, love, and peace for yourself, your family, your business, your community, and your world.

"This book brings together energetic science and universal spiritual intelligence in a way that is understandable and practical. If you are ready to take responsibility for your life and manifest your own magnificence, this is for you."

-Susan T. Howson, MA, CPCC, PCC, CHBC, founder of

Magnificent Creations Limitee and Kids Coaching Connection

"A very current description of where science is in relation to the deeper wisdom of spiritual writings and teachings. It is a book for the 21st century."

-Catherine Nelson MA, PhD, founder of Rocky Mountain Pathwork

"The practical exercises give us a chance to feel the energy surging through us and around us. I hope many people get a chance to read this."

-David Newby, MBA, director of In-Touch Insight Systems

When I was reading this book, I had just ...

By Amazon Customer

When I was reading this book, I had just had a conflict with someone that had activated something in me that I knew I required to clear from my childhood. Just by reading the invocation and protocol using the Violet flame, I could feel the past discordant pattern being transmuted and healed, and the conflict completely disappeared. It was as if the book activated the frequencies of absolute harmony and purged out anything that didn't resonate with this. If you want to learn about the true energetic anatomy of humans and how to embody your full potential self from a scientific perspective, then this book is for you.
