not a generic book

By grace4me

If Roseanne and Chris Farley had a child they would of named him Kevin, funny, middle class, definately one of kind. This books starts out with short observations that reminded me of a comedian doing a stand up gig in a comedy club...funny, witty and the stuff of daily life. Somewhere in the middle the mood changes and it becomes more serious and personal. The writer ends with more personal observations of every day life. It is a book obviously born out of a middle class kid who grew up in a family he loves with all of the struggles and joy that brings. I think most readers will see themselves in this book at some point, whether you agree with the writer or not. What I liked about this book is the writer is not asking you to agree with him, but instead to literally start a conversation..he even gives his personal email address and invites the reader to weigh in with their thoughts. So, let the conversation begin. Oh, and by the way Kevin I am one of the drivers you talk about in your book..so get used to it....we are here to stay.

Worth the read...

By MissSheila

Funny and sarcastic, at times a bit dark, often eye opening and sometimes uncomfortable, but always truthful...a great look at life amid its chaos and distractions. Cochran's unique perspective, sarcastic wit and raw articulation resulted in a full-circle of emotions along this literary journey: I smirked, giggled, and laughed 'til I cried; I was shocked; I was sad; I got mad and called him a colorful name a time or two; and, I was forced to look within myself and some of my own thoughts and beliefs.

Excellent, enjoyable read!

By Av8rJohn

An enjoyable, light-hearted and yet sometimes poignant take on life as a middle class "average Joe." I was able to get through the whole book during a round trip cross-country flight without putting it down and with my passenger neighbors wondering what the constant chuckling was about. The author's wit and sarcasm comes through on every page. You'll definitely be rubbed the wrong way on occasion, but will also feel that he is speaking directly to you most other times.
