Gritty, and true- it's the small stuff that counts

By Mike3746

I am a Vietnam era combat veteran, 101st Airborne Div. - 1968. So, I've been there. Grangie Korff has the knack to tell the soldier's tale that takes the reader past the blood and gore and explosive action. He tells the true story of what it is like to be there on the line with hundreds of other men willing to risk their lives in an instant for the unit and for, especially, each other. He endures amazing hardship, incredible risks to his life and limb and yet manages to go through it all with a hard, inner determination to always keep his humanity. He tells it all, from the heart. His eye witness descriptions are vivid and down to earth, bringing the reader right along on the dusty, sweaty powder stained trail into real combat. It's not glorious. It's not valorous (though there is valor galore). It is Grangie just slogging through no matter what. He uses a rare writer's gift for keeping in mind the importance of the tiny details that make a soldier's life both a hell and a heaven. From ill fitting boots, to the need to be loved by a kitten. From laughing at the sight of awkward though deadly enemy troops, to finding keen interest in learning how to track deadly enemy stragglers. This book is one every war story enthusiast should have in his or her library. It is the meat and potatoes of human warfare soldiers have been experiencing since humans first threw a rock at a poacher.

Intense, gripping, unforgettable

By Roger Brooke

This is the best book I have read on the South African/Angolan bush war. Most books are written by men who were professional soldiers, for whom combat operations are often described rather like military briefings: detached, "objective" and tactical. Korff writes like the best of writers. His text is close to the skin, his images and similes are compelling and original. When he describes fear, he says he can feel the cold eel move in his belly. His writing is so close that the reader can almost feel the sweat stinging his eyes and the smell of death. The book is also unflinchingly honest, and he writes of his actions and exploits without being either confessional or braggardly. He simply says what happened, without holding anything back. Further, unless one is particularly prudish (then why would you read a book like this anyway, you nitwit?) you can't help admiring, and perhaps envying, the young fellow's wild ways. I was rooting for him from beginning to end, from his sexual shenanigans with his high school teacher, through his street fight with some toughs, through paratrooper selection, and through the bush war. His book should make paratroopers proud, even

though he does not for a moment glorify the hell and horror that such an experience might mean.

Granger Korff's Book: "19 with a Bullet"

By Sean Folsom

This is one of the Best Books I have read on the South West Africa / Angola Border War from the personal point of view of Granger Korff who joined the South African National Defense Force at the age of 19 years. I think it has a valuable insight for our "Returning Veterans" who have the same issues with their Mental and Physical Health that Mr. Korff suffered, and still does suffer, to a certain extent, to this present day. I loaned this Book to a friend of mine who is a US Army, Gulf War/Iraq Veteran who is struggling with his own Demons, and he told me that he was comforted by Mr. Korff's experiences and the way in which He came to terms with his Army service, after his return to Civilian Life.

For most people in the USA, myself included, the reporting and history of this conflict was/and still is, almost nil. I, myself, did not support the old South African Government's policy of Apartheid, and I actively boycotted South African products, however, this is History and I do want to be informed about it.

The fact that this Angolan Border War was backed by Russia with large amounts of Armaments, Transport (for the Cuban Army from Cuba to Angola, East German Paratroops from Europe, etc) and Money, was a major factor in the breakdown of the Soviet Union.

The other major factor of course, was the Russian's 10 year occupation of Afghanistan (1979-1989).

We as a Nation have much to learn from literature like "19 with a Bullet" Mr. Korff does not glorify War, but He does offer a very good insight to how a Young Man reacted to his experiences in this War.
