Buy this, you won't be disappointed!

By Susan C.

Love this book/cd! Singing along with Ysaye has broadened my vocal range! Ysaye has arranged the traditional songs with all the parts from bass to soprano, including call and response parts. She sings each part, then gives the listener a chance to sing it, encouraging you to try parts you may not think you can achieve! I never thought I could sing a bass part, as I am normally a high alto. This provides a great exercise for the professional singer as well as the amateur who just enjoys singing. It's even more fun if you can find a group of like minded friends to sing with! Thank you Ysaye!
