An absorbing tale of fame, changing fortunes, and music, set in an alternative Victorian world, from the striking creator of *Worldshaker*

What if they'd invented rock 'n roll way back in the 19th century? What if it could take over the world and change the course of history? In the slums of Brummingham, the outcast gangs are making a new kind of music, with pounding rhythms and wild guitars. Astor Vance has been trained in refined classical music. But when her life plummets from riches to rags, the only way she can survive is to play the music the slum gangs want. Charismatic Verrol, once her servant, is now her partner in crime—and he could be so much more if only he'd come clean about his mysterious past.
