Great book!

By ahra

I really enjoyed the book. It was solid with tons of art and concepts. I give it a 4 star only because it was different from what I expected and wanted. I wanted to see developmental sketches and environmental sketches more and drawings pertaining more towards the animation. But it was nearly all concept drawings with the assortment of characters. I really love the book! It offers so much inspiration and it is overall a great purchase I recommend for an enjoyable view. :)
