THE THETA PATIENT BY CHRIS DIETZEL PDF

After receiving three new patients at the mental institution he runs, Dr. Bradburn is immediately visited by an agent of the Tyranny who insists one of the men is a radical. Only by asking each patient a series of questions will the supposed threat be identified. But the questions Dr. Bradburn is told to ask will make him rethink everything he knows about the world around him:

- Do you believe in time travel?
- Is the world a better place today than it was a hundred years ago?
- If you could go back in time and change any event, what would you change?

A Theta Timeline short story.

- Published on: 2015-09-15
- Released on: 2015-09-15
- Format: Kindle eBook

Good little story

By Amazon Customer

Good little story. The thought 'there is no winner here' comes to mind. What do you think, did they pick the right patient?

1 of 1 people found the following review helpful.

A world I hope I never see but it was scary and great to read!

By montzalee wittmann

The Theta Patient by Chris Dietzel is a terrifying short story of world of Tyranny. Believe me, this world was named right. The story is of a doctor that is brought three new patients and he must decide which of them is against the government. It is a suspense filled, nail-biter, short story with surprises and twists and a possible future that I hope never happens but similar to what might have happened during the Nazi reign. Great job, scary and full of twists. Loved it.

A chilling thriller.

By Mandy Walkden-Brown (QLD, AUS)

A disturbingly active Big Brother is the Tyranny, not satisfied with just watching. This rather chilling and well written tale from the Theta world has piqued my interest and the two novels set in this most disquieting place are now on my download list.

It has, however, prompted a touch of paranoia and I find myself eyeing the ubiquitous security cameras with just a little suspicion.

Highly recommended.
