About the Author

Kirk Phillips, aka the [TheBitcoinCPA](#), is an entrepreneur, Certified Public Accountant (CPA) and a self-taught woodworker—an artist in all areas of life. He brings the same attention to detail necessary for creating finely crafted furniture into the business world. He is passionate about technology, business processes, fraud prevention, time management, learning and peace of mind. Kirk discovered Bitcoin at the end of 2013 when a friend asked for advice, saying, "My husband and I want to invest \$800 in a computer to mine bitcoin and make some money. What do you think?" to which he responded, "I don't know anything about Bitcoin, I'll have to get back to you." This simple inquiry led him down the Bitcoin Rabbit Hole, an experience described by many Bitcoiners, and ultimately gave birth to **The Ultimate Bitcoin Business Guide**. The Bitcoin journey has magnified Kirk's commitment to helping business get done with greater ease and transparency at all levels. Kirk brings more than 15 years' experience working in public accounting while also working in private industry and with business owners and individuals. He has launched multiple businesses, including [invizibiz.biz](#) a virtual accounting and back office subscription service. Because of his desire for continuous learning and development (and a slightly obsessive approach to everything that interests him), Kirk became DCC Certified with the Digital Currency Council and also earned the Certified Bitcoin Professional (CBP) designation issued by C4, the Crypto Currency Certification Consortium. He earned a Certificate of Completion from the University of Nicosia, Introduction to Digital Currencies MOOC Course. He has also authored several articles about Bitcoin. Kirk holds additional designations as a Certified in Financial Management (CFM) Certified Management Accountant, CMA Certified Fraud Examiner (CFE) and a Chartered Global Management Accountant (CGMA). Kirk has immersed himself in bitcoin and is currently one of only a handful of qualified CPA strategic advisors in the bitcoin and cryptocurrency space. He weaves risk management into business process outsourcing and also provides crypto business consulting and education. You can contact Kirk on twitter [@TheBitcoinCPA](#).

THE ULTIMATE BITCOIN BUSINESS GUIDE: FOR ENTREPRENEURS & BUSINESS ADVISORS (THE ULTIMATE BITCOIN BUSINESS SERIES) (VOLUME 1) BY KIRK DAVI PDF

What's faster than a speeding bullet, more powerful than a locomotive and able to leap tall buildings in a single bound? We all know the answer is Superman. Now, what's 1,000 times faster and 1,000 times less expensive than a \$1,000 credit card transaction? We bitcoin of course, our modern day financial superhero. For the first time in history people have choice and control when it comes to money and finances. Bitcoin will transform money the way the Internet transformed commerce—and that's just the beginning. It will magnify the “adapt or die” global game of business, creating more organizational transformation and more extinction than any other time in history. The Ultimate Bitcoin Business Guide explores this innovative financial paradigm, one that is so contrary to our existing money model it's like experiencing life on a new planet. Bitcoin is a trustless system, a public transaction ledger controlled by no one, with no third-party banks, no central banks, no long-term inflation, no crazy bank and credit cards fees, no bank withdraws without your permission and the ability to send value nearly instantaneously to anyone anywhere in the world from the comfort of your home or office. We're at the beginning of a spectacular renaissance that comes along only once every 500 years. It's an exciting time to be alive and witness the endless possibilities of bitcoin, and it's an even better time to get your business on board. Written by an entrepreneur and business advisor for entrepreneurs and business advisors. The best resource for people in business who are starting or continuing their bitcoin journey

Business perspective on bitcoin by a CPA.

By Sarah Hughes

A wonderful book on bitcoin that covers the technology and the business realities. The author, being a CPA and someone interested in digging into new technologies to see how they fit into today's business environment provides an opportunity for a helpful perspective that Kirk delivers on. An easy and enjoyable read.

0 of 0 people found the following review helpful.

Excellent and very beneficial reading.

By Phil Champagne

The section Why this book was written says Stephen Covey appropriately said "To Understand something is to understand its opposite". Well, Kirk certainly did an excellent job of explaining the current payment system. But this was merely the beginning since the book is about Bitcoin and how much useful can it be for a business to leverage the payment system that comes with it. Not just the why but the what and how. What are the tools and services available for those interested in it and what's some of the legislative and tax environment pertinent to it.

0 of 0 people found the following review helpful.

Best Summer Read

By Amazon Customer

An incredibly articulate and exhaustive exploration on Bitcoin history and the entire digital currency ecosystem. Whether you're a scrappy entrepreneur or a banking insider, you'll gain considerable insight from Kirk's incisive observations on everything from multisig wallets and crowdfunding to digital identity management and best practices for managing risk. Quite honestly, there are few books in the crypto-currency or FinTech realm that can match the wealth of practical business advice and industry specific wisdom that Kirk has assembled here.
