Addictive story, impossible to put down

By Kitty Smith

Celena's story is raw and gripping, at times almost painful to read, a journey of self destruction that is impossible to look away from. From a very young age she's had to work hard to fit in and appear normal, but

she's always known that something about her was off. Her senses aren't quite right, and her reaction to other's pain is more detached amusement than any real concern. As she grows older her personality begins to twist harder into that dark corner most of us aren't aware exists. She understands that she's empty inside and that there's no treatment that will make her feel alive, much less be like everyone else around her. Her only option is to pretend, to choose the correct behaviors that will allow her to fit in, even when they feel alien to her.

The calculating manner in which Celena assesses and analyzes everything in search of clues about how she should act is fascinating, particularly when she studies the online porn for tricks on how to basically enslave Serge through sex. She's brilliantly cold when she wants something, and for a while her seductive manipulations have their desired effect on him, but Serge isn't a saint and Celena is an emotional hurricane that no one can stand in front of for long. When Brendan confronts her about her behavior and floats the possibility that she's a sociopath, she decides to break things off with Serge for everyone's sake and behave. And she does, for a little while.

It really is a brilliant story, unlike anything I've read before. I always find damaged characters to be the most appealing and Celena is completely wrecked. Her escalating mental state and the carnage she leaves in her wake make her a mesmerizing character. All of the characters are well thought out and unique, but Meir did a spectacular job with Celena. The story is utterly addictive.

Fantastic Story of a Troubled Young Woman

By Jordyn Dover

Trashed is a very unique and well delivered story of a girl that is misunderstood by society, her parents, and even herself. The story centers around a girl named Celena, a troubled young woman who always seems to find amusement at the expense of others. The story is short and covers a brief portion of her life, but all of the details are vividly told and the author does a great job of bringing Celena to life for the reader. I don't know if Celena is based on a real person that the author knows, or maybe even portions of the author's own life, but the story is so well told that I would not be surprised if either were the case.

I will say that the book is just a bit slow and takes some reading to firmly grab a reader's attention, but once it does I found myself not wanting to put the book down. I became very interested in the twists and turns of Celena's life: her one true friend, her lover/boyfriend/tormentor, and her parents. The ending was done very satisfactorily and left me wanting more from this author. I rate this book 4.5 stars.

4.5 Stars out of 5

By John Coleson

Trashed is a story about a young girl who struggles with problems that fall outside the normal realm of difficulties generally faced by young women. Throughout the story, Celena tries to fight her personal demons, which include mental disorders, trying to find her play in society and doing well by her struggling mother who only wants a new life for her. On top of her internal battles, she faces more problems externally, including another troubled youth who enjoys using others for his own purposes.

In brief, I enjoyed Trashed and I feel that the author really brought Celena's plight to the reader. The author did a good job on making the reader understand the depth of Celena's mental disorders and her other troubles that she dealt with daily. The story was solid and the conclusion was done with satisfaction.
